Subject: my formaldehyde revisions
Attachments: FormaldehydeTRdraft071913-jj2.docx

hi, Barbara and Andrew. here are my revised sections, all in redline. this includes the updated NPC stuff i sent earlier and the new revisions for myeloid leukemia. the last uncertainty section, erroneously included as a subpart of subsection 2.2.4.4 (which should actually be 2.2.4.3 anyway) is FUBAR and needs to be totally redone, along the lines i've noted in my comments. mainly, it should be integrated back into section 2.2.1.5 and those uncertainties should be presented as i had originally, before it was edited by others. if y'all can't fix it, i'll try to get back to it in a few months, after i'm done with ethylene oxide. jj
